# Just Tiles!

**Wandtegels** kunnen met standaard wandtegellijm en –voeg verwerkt worden. Reinig de tegels met schoon water en een neutraal (niet zuur of alkalisch) schoonmaakmiddel. Wandtegels zijn niet vorstbestendig dus uitsluitend voor gebruik binnen.

Voor de **craquelé glazuren** geldt het volgende; vóór het voegen de tegels behandelen met S731 MKH van Moeller Stone Care om de haarscheurtjes te beschermen tegen indringen van vuil. Bij verwerking in natte ruimtes moet de achterwand waterdicht zijn.

Gebruik uitsluitend een **lichte voeg**, gebruik van een gekleurde/donkere voeg wordt ten zeerste afgeraden, de pigmenten van de voeg kunnen in de haarscheurtjes trekken. De vorming van haarscheurtjes tijdens of na het zetten is inherent aan deze series.

**Vloertegels** uit deze brochure kunnen met standaard vloertegellijm en –voeg worden verwerkt. De PEI en R waarden staan vermeld bij de desbetreffende series.

Tegels en randen van verschillende maten in dezelfde kleur kunnen van elkaar afwijken in tint. Dit is inherent aan de productiewijze van tegels.

Op alle leveringen zijn onze algemene voorwaarden d.d. 1-1-09 van toepassing, zie [www.cottoceramiX.nl](http://www.cottoceramiX.nl).
